

Career Objective

As a Junior MERN Stack Developer, I am eager to apply my foundational skills in JavaScript, React.js, Node.js, and MongoDB to build dynamic and user-friendly web applications. My hands-on experience with HTML/CSS ensures the development of visually appealing frontends, while my knowledge of RESTful APIs and version control with Git/GitHub supports efficient development practices. I am committed to continuous learning and growth, and I am excited to contribute to collaborative projects while staying aligned with industry trends.

Skills

- **Front-End Development:** ReactJS , JavaScript , Tailwind CSS , Firebase ,Git , Github , Context API , RESTful APIs , AJAX , SASS ,Responsive design , Website optimization
- **Back-End Development:** ExpressJS , MongoDB , NodeJs , JWT
- **Design:** Figma
- **Soft Skills:** Time Management, Adaptability , Quick Learner, Responsibility.
